

MARLBORO SEAMLESS GUTTERS

The Gutter Care Company

We Clean, Fix, Cover & Install Seamless Gutters

GUTTER CARE AND MAINTENANCE

Keeping your gutter system flowing properly is critical. Just a little bit of debris can clog the downspouts. If the gutters don't work right, there is spill over that causes erosion, back splash onto the house, wood rot and leaking into the basement. And worst of all, gutters that don't work right hold water and organic matter. This lets mold grow and mosquitoes breed and thrive. If they aren't working right, gutters can cause damage and create an unhealthy environment.

To keep your gutters working right, you need to maintain them frequently or install a quality gutter cover. We offer several excellent gutter covers that you can review at www.seamlessgutter.com/covers.

However, since gutter covers are expensive, don't always work right and they still need to be cleaned, we encourage our customers to sign up for one of our annual gutter care maintenance programs instead. These are extremely popular and offer peace of mind. We take over the responsibility of maintaining your gutters. You never have to think about your gutter system again.

We are the original gutter company. Founded in 1985, we are a local, family owned business. We pride ourselves on our excellent staff, superb quality and exceptional customer service. We will work very hard to exceed your expectations.

Please let me know how we can become your Gutter Care Company.

GUTTER CARE PROGRAM

Includes as many cleanings as are needed to assure your system works right.

As part of the cleanings we do the following:

- With the spring cleaning, we clean the outside of the gutters to get rid of the dirt and ugly streaks
- Clear off the roof of any leaves or pine needles
- Clean & Flush all gutters & downspouts
- Check Pitch – make minor adjustments as needed
- Reconnect all downspouts, elbows & extensions
- Replace missing or damaged extensions
- Assure that end caps and miters are sealed properly
- Add splash blocks where missing – in landscape beds
- Add downspout hinges – where extensions go onto grass area
- Test to make sure water isn't wrapping behind the gutter
- Assure that the gutter system is working well and flowing freely
- Provide a written detailed report with each site visit

GUTTER CARE PLUS PROGRAM

Gutter Care Plus is for those who need the ultimate in protection. In addition to the services in the Gutter Care Program, we also will handle your roof snow removal needs during the winter. This will include an auto roof raking and ice dam removal program. This plan offers the ultimate solution for your gutter cleaning and roof raking needs.

GUTTER CARE LITE PROGRAM

This is for homeowners who do not need quite as much attention. This includes a Spring and Fall gutter cleaning. It includes all of the other elements of our Gutter Care Program.

GUTTER CARE SUPER LITE PROGRAM

This is for homeowners who just want one cleaning a year. This includes a basic assessment and an interior cleaning only. Additional cleanings and services are available at a discounted rate.

A FEW FREQUENTLY ASKED QUESTIONS:

Why would I want to enter into a service agreement? Isn't cleaning my gutters in the fall good enough?

We find that almost every house needs a cleaning at least twice a year and sometimes up to 8 times a year. Even if your gutters are cleaned one day, debris can clog them the next day. By having us take on the burden of gutter maintenance, you are assured that your gutters flow properly, year round.

Can't I just call when I need my gutters cleaned?

We find that most homeowner don't call until they have a major issue and when they do call, our schedule is often full. With our gutter care clients, we know who needs to be serviced and when. We can properly staff and schedule to accommodate those needs. With an "on call" customer, we can not guarantee that they'll be serviced in a timely basis.

How do you guarantee my gutters will function properly?

We have dedicated staff who service our gutter maintenance customers and so you will always be assured of a timely response and excellent customer service. We have detailed scheduling systems and gps dispatched service vehicles to help assure that your gutters get cleaned, on time...every time.

What if I have a gutter cover, do I still need maintenance?

Usually a gutter cover needs to be cleaned off on a regular basis to keep them performing properly. And while some of them do keep debris out of the gutters, they often collect debris on top of the cover or in the little openings. This debris interferes with the system performance and needs to be removed. In addition, the front of the gutters still need to be cleaned regularly to assure that your gutters and home look their best.

What if water is wrapping behind my gutters?

Unfortunately this is a common problem. It has to do with the positioning of the existing drip edge and roof shingles. If not addressed, this can lead to wood rot and system failure. Our proprietary product Drip Edge Enhancer™ (www.seamlessgutter.com/dee) will solve this problem.

Why do my gutters get streaks on the front of the gutter?

This is a common problem. The dirt and pollution in the air mix with rain and that combination runs along the front of the gutters, leading to staining and tiger striping. The bond that is created between the dirt and aluminum is very difficult to clean – it takes special cleaners to remove the staining. We clean off this streaking with your spring cleaning. If you want a permanent solution, we offer stain guarder to eliminate this problem forever (www.seamlessgutter.com/stainguarder).
